**Subject:** RE: COTCE - CORRESPONDENCE RECEIVED FROM STEVEN LEVY, CENTER FOR CONTINUING STUDY OF THE CALIFORNIA ECONOMY

Dear Commissioners,

I hope you will take VERY seriously the comments and questions from Steve Levy at CCSCE. I've known Steve for a few decades and know his seriousness of thought, study and purpose. He, like I, wonders about the economic and population underpinning of the recommendations. These facts will be very important in the level of confidence that Commissioners and Legislators have when asked to vote on the recommendations. I hope these facts and bases will be available soon. We have seen some recommendations but not solid, factual underlying substantiation, at least to my satisfaction.

Becky Morgan  
Commissioner
